No additional charges to the State will be allowed the contractor for overtime, additional manpower, equipment, additional shifts, etc. (except as may be provided elsewhere in the contract), if such expediting procedures or measures are necessary to meet the agreed completion date.

9.1.6 Each contractor agrees that it will make no claim for, and have no right to, additional payment or extension of time for completion of the work, or any other concession because of any misinterpretation or misunderstanding on the contractor's part of the project schedule, the contractor's failure to attend the pre-bid conference, or because of any failure on the contractor's part to become fully acquainted with all conditions relating to the project schedule and the manner in which it will be used on the project, or because of any other contractor's failure to properly participate in the development of a schedule or to perform the contract in accordance with the schedule.

9.1.7 At each biweekly project meeting, the contractor shall provide an updated project schedule that includes all activities; including any activities added for change order work approved to date. The updated progress schedule shall include the progress achieved for each activity that was scheduled, including the actual dates the work was started and completed. The contractor agrees that this information shall constitute the official historical record of project progress.

This schedule/work plan shall focus on the activities to be completed in the next two week period. This schedule/work plan shall be in greater detail than the overall project schedule. This schedule/work plan shall include, but not be limited to, the contractor's activities that impact the operations and occupants of the State building or facility.
